

Stark Industrial's Manual Dish Pot and Pan Detergent is a specially formulated concentrate for use as a hand dishwashing detergent. It is mild and gentle to the skin yet provides rich, foamy suds even in extremely hard water and rinses freely without hard water spotting and streaking. Manual Dish Pot and Pan Detergent holds a steady suds level while emulsifying grease and oil, as well as loosening caked on foods from dishes, utensils, glassware pots and pans.

DIRECTIONS: For normal operations, use 2-3ml of Manual Dish Pot and Pan Detergent per litre of water. This phosphate free and biodegradable product, when dissolved in warm water, will efficiently remove grease and other soils from eating utensils and may also be used for general cleaning of any hard surface which would not be harmed by water alone.

NOTE: Stark Industrial's Manual Dish Pot and Pan Detergent has high sudsing characteristics and should never be used in dishwashing machines.

FOOD CONTACT SURFACES: Surfaces subject to direct food contact must be rinsed with potable water.

Manual Dish, Pot and Pan Detergent

**Biodegradable
Phosphate Free**

Avoid contamination of food in use and storage of this product.
For Industrial, Institutional and Food Plant Use.

☐ 4L ☐ 20L

WARNING: Keep out of reach of children. May be irritating to eyes if in contact. PRECAUTIONS: Do not take internally. Avoid contact with eyes. Keep from freezing. FIRST AID: In case of eye contact flush with water. If irritation persists see a physician. If swallowed, do not induce vomiting, give patient large quantities of water. Consult a physician immediately. FOR FURTHER INFORMATION REFER TO MATERIAL SAFETY DATA SHEET.
