

Stark Industrial 's Forward is an enzyme activated emulsifier, very effective in removing insoluble soil particles and protein-based soils at temperatures up to 140 F. All the biodegradable surfactants provide rapid wetting, emulsification, soil removal and controlled foaming. The proprietary blend combines several soil specifics to act on a wide range of stains. Forward is a highly effective blend of surfactants formulated for use in a variety of laundry applications. Forward contains excellent soil suspension ingredients to prevent anti-redeposition. It works effectively in all water conditions and all soil classifications. Its penetrating and emulsifying ability prevents fabric greying due to soil redeposition. Forward has excellent wetting capabilities, is safe on all types of fabric and is phosphate free. Forward's cost effectiveness makes it an excellent product to use in heavy soil conditions.

Institutional fabric care and on premise laundry:
Use 1-2 oz per 50 lbs. medium soil.

Forward

Enzyme Activated Laundry Detergent

Avoid contamination of food in use and storage of this product.
For Industrial, Institutional and Food Plant Use.

☐ 4L ☐ 20L

WARNING: Keep out of reach of children. May be irritating to eyes if in contact. PRECAUTIONS: Do not take internally. Avoid contact with eyes. Keep from freezing. FIRST AID: In case of eye contact flush with water. If irritation persists see a physician. If swallowed, do not induce vomiting, give patient large quantities of water. Consult a physician immediately. FOR FURTHER INFORMATION REFER TO MATERIAL SAFETY DATA SHEET.
